Thrips & more

HOW IT WORKS

SNS 203 has active ingredients that cause pests to dehydrate and die. It also attacks fungus & algae, reducing the food source for pests.

APPLICATION

Root Drench

Shake well before mixing. Mix 2-4 oz. per gallon of water. Thoroughly drench affected and surrounding areas.

Foliar Spray

Mix 2-6 oz. per gallon of water. Spray foliage to point of runoff.

Hydroponics

Hydro Tray: Pour solution over roots & drain into the system. Flush system after use.

Bucket Drench: Soak root system in a 5 gallon bucket for 5-10 minutes. Rinse, return to system.

Use 203 every 7-14 days for preventative maintenance.
