HOW IT WORKS

SNS 244 is absorbed systemically by the plant, suppressing the life cycle of fungal spores and nurturing a plant's ability to fight and prevent disease.

APPLICATION

Mixing 244C

Shake well before mixing.
Mix 16 oz. per gallon of water.

For best results use warm (70 degree)
distilled or "chlorine free" water.

Foliar spray

Spray every 2-3 days until the problem
is under control. Thoroughly wet all
affected areas.

Spray at night or when lights are off if
possible.

Use 244 every 7-14 days for preventative maintenance.
