

GROW MICRO BLOOM

HOW IT WORKS

Grow, Micro, Bloom Nutrients are a combination of primary nutrients (NPK), blended with our in-house distilled alfalfa extracts. They help stimulate growth for higher yields at lower costs.

GROW

Grow Nutrient Formula promotes vegetative and structural growth, along with strong roots.

MICRO

Micro Nutrient Formula adds trace elements such as calcium, magnesium & iron and helps sustain a plant's health and vigor.

BLOOM

Bloom Nutrient Formula stimulates the bloom phase of flower, bud or fruit.

NUTRIENT FEEDING CHART

SEEDLINGS & CUTTINGS		GROW PHASE		BLOOM PHASE		
	Weeks 1-3 tsp/gallon of water		Weeks 4-6 tsp/gallon of water		Weeks 7-10 tsp/gallon of water	Week 11 tsp/gallon of water
GROW	¼ tsp	GROW	3 tsp	GROW	2 tsp	Flush
MICRO	¼ tsp	MICRO	2 tsp	MICRO	1 tsp	Flush
BLOOM	¼ tsp	BLOOM	1 tsp	BLOOM	3 tsp	Flush
Average TDS 450 - 520	Average pH 7.2 - 7.5	Average TDS 600 - 700	Average pH 6.9 - 7.1	Average TDS 900 - 1125	Average pH 6.9 - 7.1	

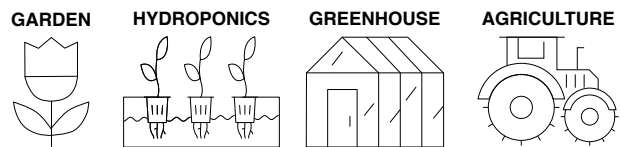

Mixing Compatibility

For best results, use all 3 together
